

Ultra-stable, high precision (ppm class) current to voltage conversion module.

Output is 10V at 1.333333A

**Specifications:****Linearity**

7 ppm linearity

**Offset**

13 ppm initial offset

1 ppm/°C

**Ratio**

10V output @ current 1.333333A

Initial error maximum 30ppm

2 ppm/°C

**Applications:**

Used inside the DSSIU-6-1U-V

All ppm (or %) values refer to nominal current
